EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Allowable Subject Matter

Claims 1, 13, 28, 33, and 61 are allowed.

Reasons For Allowance

The following is an examiner's statement of reasons for allowance: claims 1, 13, 28, 33, and 61 are allowed because the recited combination of elements of a device for manipulating a molecule in vivo including at least four rectangular striplike electrode members having at least one independently addressable conductive portions separated by nonconductive portions where two electrode members provide a first electromagnetic field to manipulate a molecule relative to target tissue and two electrode members provide a second electromagnetic field to provide transient permeability of a cell membrane within the target tissue is not found nor fairly taught in the prior art of record, as argued by applicant and agreed to by examiner.
